Description

Outstanding Features

The garments labelled as committed are products that have been produced using sustainable fibres or processes, reducing their environmental impact. Umino's goal is to support the implementation of practices more committed to the environment.

- Tonal stitching: 98% cotton, 2% elastane.
- Supple and stretch knit with a rich touch of wool.
- Model: Model is 6'1", wearing a size M.
- Caring for your clothes is caring for the environment.

We work with monitoring programmes to ensure compliance with our social, environmental and health and safety standards for our garments. To assess compliance, we have developed a programme of audits and continuous improvement plans. Made of super-soft cotton, the Organic Cotton Cutaway Tank features a high neck and back, and a slight curve at the shoulders, which makes it extra flattering. If there's one thing the '90s got right, it's the basics.

Washing Instructions
